SHIVARAM REDDY

Full Stack Developer | AI/ML Enthusiast | Computer Science Engineering Student

eshivaramreddy@gmail.com • 93468997709 • github.com/shivaramreddy78 • linkedin.com/in/shivaram-reddy-enukonda-a11a14332

EDUCATION

Nalla Narasimha Reddy Education Society's Group of Institutions (NNRG)

B.Tech — Computer Science Engineering | Expected 2029 | 1st Year SGPA: 7.95

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, SQL

Frontend: HTML, CSS, React.js, Tailwind CSS

Backend: FastAPI, REST APIs, Node.js

AI/ML: Generative AI, Machine Learning, RAG, LangChain, Computer Vision, OpenCV, MediaPipe

Databases: MySQL, PostgreSQL, SQLite, Supabase

Tools: Git, GitHub, Streamlit, FFmpeg, API Integration

Core Concepts: Data Structures & Algorithms, OOP, DBMS, Computer Networks, Computer Architecture

PROJECTS

SupportAI — AI Customer Support Platform

- Developed a modern AI-powered customer-support platform using **RAG**, authentication, chat functionality, knowledge-base retrieval and analytics.
- Built a responsive SaaS interface with **React, TypeScript and Tailwind CSS**.
- Integrated backend/API functionality for intelligent customer-support workflows.

Pattern Optima — AI-Assisted Fabric Nesting

- Designed an AI-assisted platform for **2D garment pattern nesting** to help reduce fabric waste in the apparel industry.
- Built the application architecture using **React, Python and AI/computer-vision concepts**.
- Designed interactive pattern-upload, preview and nesting-visualization workflows.

Smart Posture — Computer Vision

- Developed a privacy-focused posture monitoring application using **Python, OpenCV and MediaPipe**.
- Uses webcam-based body landmarks to identify posture-related movements and provide real-time reminders.
- Designed the system to process camera information locally without storing user frames.

Smart Summarizer — AI Video Summarization

- Built an AI-powered summarization application using **Whisper, Llama, LangChain, Streamlit, yt-dlp and FFmpeg**.
- Converts video/audio content into text and generates concise AI summaries.
- Supports multilingual content processing.

FIBO — Alternative Credit Assessment

- Designed an AI-based alternative credit assessment solution for underserved individuals and small businesses.
- Uses financial and business signals such as income, expenses, cash flow and transaction-related information for assessment.
- Built the backend architecture using **FastAPI, Python and SQLAlchemy**.

EXPERIENCE

Pantech Solutions — Full Stack Development Intern

Apr 2024 – Jul 2024

- Worked on full-stack web development and API integration.
- Contributed to API aggregation and application deployment workflows.
- Gained practical experience with Git, backend APIs and web application development.

Sangam Solutions — Generative AI Intern

Jun 2024 – Jul 2024

- Worked on Generative AI applications and automation workflows.
- Contributed to a **Salesforce chatbot** and **Workato automation** solutions.

- Gained hands-on experience integrating AI capabilities into business workflows.

ACHIEVEMENTS

- **2nd Prize** — Generative AI Hackathon
- **1st Prize** — Paper Presentation
- **Best Active Programmer**

AREAS OF INTEREST

Full Stack Development • Artificial Intelligence • Generative AI • Machine Learning • Computer Vision • Web Development • API Integration
